

**BERRICK SALOME PARISH COUNCIL  
RISK ASSESSMENT**

Risk assessment is a general examination of working conditions, activities and environmental factors that enable the identification of potential risks inherent in the place or practices. The Parish Council should take all practical and necessary steps to reduce or eliminate the risks, as far as practically possible.

This document has been produced to enable the Parish Council to assess the risks it faces and satisfy itself that it has taken adequate steps to minimise them.

This risk assessment was reviewed at the meeting of the full council on 8 March 2018
